OW THE AGREEMENT WAS SIGNED.

ANXIOUS NIJET'S INCIDENTS.

MUDANIA, October 11. the agreement was signed at 6.40 this morning. provides for avacuation of Thrace within filteen days; installation of the Turkish administration within thirty days; limitation of the Turkish gendarmerie to 8,000; establishment of an allied covering force on the west bank of the Maritza; and creation of a neutral zone inside a line drawn fifteen kilometres from the Straits with the demilitarised zone beyond, also a neutral zone on the Ismid peninsula inside a line extending from Chebzeh to Shileh with the demilitarised zone forty kilometres bayond.

Both sides agree to suspend reinforcements and fortifications.

The Greek delegates reserved their signature on the ground that the terms did not accord with their instruc-

HANDSHAKE BOND.

The proceedings opened yesterday evening with a speech by General Harington who repeated his declaration of October 9 that the terms were offered to the Turks for final discussion. General Harington and the Turks were very harmonious, ending with handshakes. The former, emphasizing the danger of the Turks advancing in the neutral zones, pointed out that Britain had many fine soldiers, ships guns, and aircraft She would make a dangerous foe, but he suggested it would be a pity to use them on the eve of the peace. conference. Therefore he hoped that Angora had replied favourably.

Ismet replied that he desired complete agreement as soon as possible.

. The draft convention was then read, Ismet commenting on and General Harington explaining various points.

General Harington, replying to a question concerning the Leutral zone, said the spirit mattered, not the form. He was willing to shake hands with Ismet as proof of mutual good faith.

Ismet promptly rose and shook hands with General Harington in the friendliest manner.

The meeting broke up at nine o'clock in the evening to permit preparation of a deficitive text, the allied generals proceeding on board the cruiser "Carysform" to meet the Greek general.

EARLY MORNING SERENADE.

The Final signature was expected at one in the morning, but the generals had not returned. A: th hours passed the crowd of officers, journalists and other waiting in the stuffy rooms became apprehensive of hitch. The arrival of the generals at three o'clock in the morning dispelled these fears. A brief meeting followed, after which it was announced agreement had been reached and signature would follow immediately and copies would be prepared. Another tedious wait due to difficulties in typing followed.

Meanwhile General Harington conversed privately with Ismet who agreed to complete the establishment of the neutral zones by Sunday night.

At long last as dawn was breaking copies of the a recement were ready for signature.

SIGNING THE AGREEMENT.

The declaration of the Greek General Mazarakis attached to the convention was read stating that as the question of a real frontier for Thrac; had been ignored and the issues were political, the Greek delegates were unable to sign without instructions from their govern

The signing occupied some time as each of the six sheets of six copies of the convention had to be in itialled or signed; and Ismet carefully compared such

RUBBER SLUMP

LONDON, October 11.

Mir. Winston Churchill, Minister of Colonies, hasapproved proposals in the supplementary report of the Colonial Office rubber committee which recommends a scheme for government intervention to operate in Coylon, the Malay States and Straits Settlements as toon possible.

This rubber scheme is framed to allow export on a minimum duty of 60 I er cent of the standard product. tion as a first stage. If during the second quarter siter the initiation of the scheme or in any subsequent three months rubber has not averaged at least ls. per lb., the percentage of standard production exportable at the minimum duty shall be reduced to 55. If that reduction is ineffective in raising the average price over the following three months to 1s. 3d. then it will be reduced to 50 and so on by five per cent reductions until that average price is secured.

It is proposed to form local committees in Caylon and Malaya-and to have a central advisory committee in London to facilitate the operation of the scheme. Proposals will be submitted to the legislatures of Ceylon, Melaya and the Straits Settlements at an early date.

It is understood that the Rubber Growers' Association has obtained assurances of cooperation, in the event of government action in British territories, on the part of a catisfactory number of British estates in foreign territories. This means that this voluntary testriction of output aforementioned scheme is regarded as practically scheme two in the previous Colonial office report but in an improved form.

LATER. The rubber report has been officially cabled to the governors of the Crown Colonies.

MARITIME CONFERENCE'S VIEWS.

LONDON, October 11.

The International Maritime Conference in London After this the misgivings of the Turks seemed to has adopted resolutions that severign states ought to disappear. They did not domur at the proposal to accept all liabilities in respect of ships they own or o, er. ate the same as private owners.

BILLS OF LADIIG.

The conference of the International Maritime Committee lengthily considered the Hague shipping rules and agreed they afforded a practical and fair solution of

the problem of the clauses of bills of lading limiting shipowners liabilities. The conference decided to take steps to draft an international convention as the most desirable means of solving the problem, and to bring the subject before the diplomatic conference sitting at Brussels on October 17.

GENERAL ELECTION BEFORE CHRISTMAS.

LONDON, October 10th. It is as certain as can be, that there will be a general election before Christmas, announces the political correspondent of Mr. Lloyd George's organ, the Daily Chronicle; following a meeting of the Cabinet at which the question was deliberated. The only doubt is whether it can be taken before the meeting of Pailia. ment in November.

Mr. Lloyd George manifestly considers that the prospective successful issue of the Government's policy in the Near East. which evoked such violent criticism on the part of the opposition, offers a not to be missed electoral opportunity. There were, consequently, the greatest

activities in coalition circles yesterday. Party whips and organisers met to consider the reports from Constituencies. Mr. Chamberlain conferred with his conservative colleagues and then with Bir Edward Carson. Mr. Lloyd George consulted various co-liberal supporters; who endors d the wisdom of an early election. Mr. H. rno and Liout. Col. Amery declded to postpone their respective visits to the

United States and Canada. Some counsellors are advising Mr. Lloyd George to resign, in view of the throatened revolt of his conservative associations, but talk of his resignation is at present not regarded seriously.

Mr. Chamberlain intimuted that, following Mr. Lloyd George's resignation, if he is summoned to: form a Government, he will advise His Majesty to dissolve T. Wisment.

LURED TO CANTON,

QUEER KIDNAPPING STORY.

A Chinese man and a woman carrying a small child, who are said to be husband and wife were charged before Mr. R E. Lindsell this morning with leaving kidnapped two young Chin-se peasant girls at Chunchawan. The complainants case were not the girls' parents, but two neighbours, to whom they "belonged" by virtue of their having been promised in marriage to th complainants' sons.

According to the story for the prosecution, the girls were working in their parents' field at 8 a m., yesterday, when the defendants engaged them in conversation and entired them to go to Canton where they were told they could earn good money weaving cloth or might even become the adopted dan hters of a wea'thy old Chinese gentleman The girls refused, but eventually wars persuaded to accompany the defendants to their home at Shalanba village. At the house, the girls alleged, were given tea mixed with the ashes of a yellow paper charm which the male defendant burned. They became giddy, and then were taken to the railway station to carch the train to Canton. The girls said they were powerless to resist. Fortunately for them however, some village boys had overheard their conversation with the defendants and informed the villagers. A search party was sent out and the girls were found walking with the defendants on the hills, Lear the waterworks, and going in the direction of Taipo Station The from the girls w ro taken back to their home,

Tue case was remanded.
